PROFESSIONAL PROFILE

Organisational learning and instructional design leader with more than ten years of experience designing leadership, capability-development and educational programmes across Africa and internationally. Experienced in learning strategy, curriculum development, adult learning, blended and digital delivery, facilitation and programme improvement. Currently leads complex, multi-year learning programmes at UCT Graduate School of Business with budgets exceeding R10 million; previously led scalable learning across eight African countries and supported digital transformation for higher education and social-impact organisations.

CORE EXPERTISE

Organisational learning strategy	Curriculum and instructional design	Leadership and capability development
Adult learning and facilitation	Blended and digital learning	Learning needs analysis
Learning quality assurance	Evaluation and continuous improvement	Knowledge-sharing practices
Multi-country programme delivery	Stakeholder and partnership management	Budget, risk and project management

SELECTED IMPACT

- Leads multi-year, multi-cohort learning programmes with budgets exceeding R10 million, integrating programme strategy, learning design, stakeholder management and operational delivery.
- Led leadership and management learning across eight African countries and coordinated complex learning programmes across more than fourteen countries and territories.
- Supported digital learning transformation for Cambridge Judge Business School, FutureLearn and the University of Bristol.
- Contributed learning design to social-impact initiatives including Tekano Atlantic Fellows for Health Equity, Columba Youth Leadership and SALGA Women in Local Government Leadership.

PROFESSIONAL EXPERIENCE

UCT Graduate School of Business

2023–Present

Learning Design Partner

- Lead the end-to-end design and delivery of multi-year, multi-cohort leadership and management development programmes with budgets exceeding R10 million.
- Translate organisational priorities and capability requirements into structured learning journeys, programme architectures and implementation plans.
- Partner with faculty, subject-matter experts, clients, universities and external stakeholders to develop relevant content and experiential learning interventions.
- Design blended learning experiences that combine facilitated learning, reflection, coaching, workplace application and international exposure.
- Coordinate academic, operational and delivery stakeholders; use participant feedback and programme debriefs to strengthen coherence, quality and learner support.
- Facilitate integration and reflective learning sessions for senior leaders, managers, government officials and board-level participants.
- Manage programme budgets, providers, delivery risks, complex schedules and multiple concurrent workstreams.

African Management Institute

2021–2023

Learning Design Lead

- Led the design and delivery of scalable leadership and management programmes across eight African countries.
- Developed learning solutions for diverse organisational, cultural and technological contexts while maintaining consistency across markets.
- Worked with subject-matter experts, facilitators and country stakeholders to translate capability needs into practical learning experiences.
- Supported blended delivery through digital content, facilitated learning, peer engagement and workplace application.
- Managed multicultural teams and cross-border stakeholders, using learner feedback to improve content and implementation.

Independent Consulting	2020–2021
Senior Learning Designer	
- Supported higher education and social-impact organisations to transform specialist content into engaging digital and blended learning experiences. - Contributed to digital learning projects for Cambridge Judge Business School, FutureLearn and the University of Bristol through Hubble Studios. - Supported learning design for Tekano Atlantic Fellows for Health Equity, Columba Youth Leadership and SALGA Women in Local Government Leadership through Elevate Learning. - Partnered with technical stakeholders to clarify learning outcomes, structure content and create accessible learner experiences.	
iXperience	2019–2020
Head of Global Partnerships Programme Director, Lisbon	
- Built university partnerships and developed avenues to increase international student mobility. - Directed the Lisbon programme, leading the execution team and overseeing operations, participant experience and legal compliance. - Improved the programme's Net Promoter Score by two points and worked across academic, operational and partnership functions.	
UCT Graduate School of Business	2016–2019
Business Developer	
- Translated organisational learning needs into theoretically sound executive education programmes and learning solutions. - Developed an integrated business development strategy, winning proposals and presentations in collaboration with Executive Education and UCT academics. - Designed the School's first blended learning programme.	
The Red & Yellow Creative School of Business	2013–2015
Instructional Designer	
Designed learning content and learner experiences within a creative business education environment, applying instructional design and digital content-development expertise.
